

Hybrid Minds, limitless futures!

PROSPECTUS 2026

Introduction

Whizzkidz High is stepping into the future with a hybrid school model in 2026, building upon the successful foundations established by Whizzkidz Montessori and Academy, which have collectively provided 3 decades of excellence in education. This innovative educational approach integrates in-person learning with online instruction delivered by Habtech, a certified provider of CAPS-aligned curricula.

The institution is committed to offering a comprehensive educational experience that encompasses live online lessons by expert subject educators, in-class support from Whizzkidz qualified educators, and a diverse array of extracurricular activities, social clubs and holistic development.

Hybrid Minds, limitless futures!

➔ Mission

At Whizzkidz High, our mission is to deliver a high-quality, hybrid education that seamlessly integrates the advantages of both online and in-person learning. We are committed to creating a versatile system that ensures learning is continuous and accessible, catering to both traditional and online modalities. Our approach is designed to accommodate various barriers to education, making it suitable for all students.

➔ Vision

Whizzkidz High envisions a transformative educational environment where every student thrives through a dynamic hybrid learning model that integrates innovative technology with personalized support. We aspire to cultivate critical thinkers, creative problem solvers, and responsible global citizens who are prepared to excel in an ever-evolving world.

Hybrid Minds, limitless futures!

Key Features

➔ Hybrid Learning Model

Students will physically attend school while participating in live online lessons projected onto smartboards. Whizzkidz teachers will provide in-person support, monitor student engagement, and assist with academic tasks.

➔ Curriculum and Assessment

The curriculum is aligned with the CAPS framework, ensuring that students are adequately prepared for the NSC Matric examinations. Continuous assessments will be employed to monitor student progress, with regular updates communicated to parents. All examinations and assessments will be prescribed and provided by Habtech Education, ensuring standardisation, academic integrity, and alignment with the national curriculum and assessment guidelines. Some tests will be conducted online during class time, while other assessments and formal examinations may be written, depending on the subject and nature of the content.

➔ Social Interaction and Activities

Students will have opportunities to engage in sports, clubs, and outings, thereby maintaining a holistic school-life experience despite the hybrid learning model.

➔ Support for Learning Challenges

On-site educators will assist students who encounter difficulties and require intervention, ensuring that personalized support is readily accessible.

➔ Technology Requirements

Students will be required to possess their own devices for online tasks, and contingency plans are in place to address potential issues such as load-shedding.

➔ School Calendar

Whizzkidz High operates as a four-term school, following the standard Department of Education school calendar.

➔ Uninterrupted Learning

Should your child be away due to illness or travel, they can log in from anywhere and continue learning — no interruptions, no gaps.

We are committed to

**Delivering a
CAPS-aligned
curriculum**

**Fostering a
supportive and
inclusive
community**

**Empowering
students with
21st-century
skills**

**Encouraging

Admission Criteria

Academic Performance:

Applicants must demonstrate consistent achievement in core subjects over the preceding two years.

Learning Capability:

The ability to work independently and a foundational level of digital literacy will be assessed.

Focus and Concentration:

Strategies will be implemented for students with attention difficulties, ensuring that their needs are adequately addressed.

Behaviour and Responsibility:

Applicants should exhibit respect for institutional rules and demonstrate effective peer interaction skills.

Parent Support:

Parental commitment to supporting their child's learning environment and technological readiness is essential. Parents are encouraged to remain actively engaged through WhatsApp groups designed for communication and feedback. Progress meeting will be convened to address any areas of improvement for the student.
